Re: Picillo Waste Disposal Site - Coventry,

Dear Mr. [REDACTED]:

The U.S. Environmental Protection Agency (EPA) and the State of Rhode Island are currently investigating the circumstances surrounding the disposal of hazardous wastes and substances at the Picillo waste disposal site in Coventry, Rhode Island. Part of the necessary clean up at this site is taking place using federal government funds under the authority of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), 42 U.S.C. §9601, et seq. Among other matters, our investigation requires inquiry relative to the nature of the wastes disposed of at the Picillo site and the identities of the parties whose wastes were disposed of at the site or who transported wastes to the site. Your company is among those whose name appears on barrels or containers which have been uncovered at the site.

In an effort to complete our inquiry, we request that you provide us with the information requested below. Please be advised that this information request is being made pursuant to the authority of Section 3007 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. §6927, and Section 104 of CERCLA, 42 U.S.C. §9604.

Also, provide copies of all documents in the possession, custody, or control of your company or any of its officers, employees, agents, servants or attorneys which concern, refer, or relate to the shipment of such wastes to Rhode Island.

3) Between January 1, 1976 and December 31, 1977, did your company use the services of any of the following companies or individuals to dispose, treat or recycle wastes:

Scientific Chemical Processing, Inc. (Newark or Carlstadt, NJ)

Please note that the documents requested in inquiries 2) and 4), above, include contracts, shipping documents, bills of lading, invoices, and any other documents showing the dates of shipment, destination of waste, number of barrels or containers, types of waste, or amounts of waste.
